

# DONNING AND ADJUSTING

## LIFEJACKET INSTRUCTIONS

FOR

**Models 3 & 5 Kapok Lifejackets**

**Models 52 & 56 Fibrous Glass**

**Lifejackets**

**For Adults and Children**

1. Put it on as a vest with either side out.

2. Tie both top and bottom "tie-tapes" tightly.

3. If "body strap" is inside the lifejacket, pull both ends out through the arm holes.

4. Clip the "snap hook" to the "Dee-ring" to close the center "body strap."

5. Pull the "body strap" tight. The heavy strap holds the lifejacket close to your body and prevents it from riding up.

**RETURN YOUR LIFEJACKET TO ITS PROPER STOWAGE PLACE AFTER DRILLS. DRY IT BEFORE STOWING. KEEP IT AWAY FROM EXCESSIVE HEAT AND SUNLIGHT TO AVOID DETERIORATION.**

**The life jacket is properly adjusted and ready for use.**
