Explosive Limits in Air	Not available.
Products of Combustion	Not available.
Fire and Explosion Hazards	Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate. Exposure to temperatures above 120°F (48.9°C) may cause bursting.
Fire Fighting Media and Instructions	Use dry chemicals, CO ₂ , water spray or foam, as suitable, for the surrounding fire. Use water spray to cool fire-exposed containers.
Special Fire Fighting Instructions	Product contents under pressure. Cool containers with water spray. Wear full protective equipment: eye/face (shield), body (full bunker gear), respiratory protection (SCBA). Provide shielding for venting, rupturing or bursting containers.

Section 6. Accidental Release Measures

Accidental Spill	<p>Small spills: Wear long rubber gloves. Soak up spill with absorbent material. Rinse area with water and wipe dry. Wrap absorbed material in plastic bag to dispose. Avoid contact with reactive metals such as aluminum.</p> <p>Large spills: Wearing appropriate personal protective equipment, spill should be diked, contained and collected for later disposal according to local, state or federal regulations.</p>

Avoid contact with skin, eyes, mucous membranes and clothing. Container may explode if heated. Do not place in hot water, or near radiators, stoves or other sources of heat. Do not puncture or incinerate container or store at temperatures over 120°F (50°C).</p> <p>Store containers in an upright position in a cool, dry secure area inaccessible to small children and pets. Keep from freezing. KEEP OUT OF REACH OF CHILDREN.</p>

Section 8. Exposure Controls/Personal Protection

Ventilation Requirements	None normally required. Use sufficient ventilation to keep hazardous ingredients below their Threshold Limit Values (see Section #2) during emergency operations such as a major spill clean-up or fire.
Eye Protection	Wear protective eyewear. Emergency responders should wear full eye and face protection.
Skin Protection	Wear long sleeves and long impervious rubber gloves. Do not get on skin or clothing. If product gets on clothing, remove clothing and wash before wearing again. Emergency responders should wear impermeable gloves.
Respiratory Protection	Avoid breathing spray mist. Emergency responders should wear suitable respiratory protection where long term exposure to large areas of spilled liquid is possible such as a major spill, a fire or a clean-up operation.
Other Protection	Emergency responders should wear impermeable clothing and footwear when responding to a situation where contact with the liquid is possible.
Work/Hygienic Practices	Avoid contact with skin, eyes, mucous membranes and clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling.
