

The chart displays current speed in knots over an eight-day period. A red vertical line at the start of Wednesday 02-Feb marks the 'now' position. The current speed generally increases from Wednesday to Saturday, peaking at approximately 0.8 kts, and then fluctuates between 0.4 and 0.7 kts through Tuesday. Arrows at the top of the chart indicate the direction of the wind, which shifts from westerly to easterly over the period.
